My dear [REDACTED]

Thank you for sending me some unclassified documents of the Central Intelligence Agency subsequent to my meeting with Director Turner and others of the central staff of the Agency some time ago.

I hope you will convey to Admiral Turner and to others my deep appreciation for their devoting time and energy to the briefing. I trust that it will be of benefit to the Agency as a larger and larger group of academic people become better acquainted with the program and its achievements. I certainly benefited personally, but I hope that through this process I may also convey a clearer picture of the function of the intelligence system to the campus community here at Oregon State University.

Very truly yours,
